1. Nature of activities and going concern

Falco Resources Ltd. ("Falco" or the "Company") was incorporated under the *Business Corporations Act* (British Columbia) on March 16, 2010 and was continued under the *Canada Business Corporations Act* on June 12, 2015. The Company's common shares trade under the symbol "FPC" on the TSX Venture Exchange. The Company's registered office is 1100, avenue des Canadiens-de-Montréal, Suite 300, Montréal, Québec, Canada.

The Company is in the business of exploring, evaluating and developing its mineral properties in the Rouyn-Noranda district of the Province of Québec (Canada) for base and precious metals.

On April 29, 2021, the Company filed on SEDAR an updated technical report, "Feasibility Study Update, Horne 5 Gold Project", dated effective March 18, 2021 (the "Updated Feasibility Study") pursuant to National Instrument 43-101, Standards of Disclosure for Mineral Projects and relating to its Horne 5 Deposit in Rouyn-Noranda (the "Horne 5 Project" or "Horne 5 Deposit").

These condensed consolidated financial statements have been prepared on the basis of accounting principles applicable to a going concern, which contemplates the realization of assets and settlement of liabilities in the normal course of business as they come due. In assessing whether the going concern assumption is appropriate, Management takes into account all available information about the future, which is at least, but not limited to twelve months from the end of the reporting period. As at December 31, 2021, the Company had negative working capital of \$12,727,624 (including a cash balance of \$19,974,784), an accumulated deficit of \$93,047,965 and had incurred a loss of \$1,590,475 for the six-month period ended December 31, 2021. As the Company is in the development stage for the Horne 5 Project, it has not recorded any revenues from operations and has no source of operating cash flow, with the exception of the silver stream agreement (the "Silver Stream Agreement") signed with Osisko Gold Royalties Ltd ("Osisko Gold") on February 27, 2019 (Note 6). Osisko Gold, through the Silver Stream Agreement and the Convertible Loan (see Note 7), and Osisko Development Corp. ("Osisko Development") (a subsidiary of Osisko Gold) which owns 17.3% interest in Falco, are considered companies with significant influence over the Company and therefore are related parties pursuant to IAS 24 *Related Party Disclosure*.

The working capital as at December 31, 2021 will not be sufficient to meet the Company's obligations, commitments and budgeted expenditures through December 31, 2022. Management is aware, in making its assessment, of material uncertainties related to events and conditions that may cast a significant doubt upon the Company's ability to continue as a going concern as described in the preceding paragraph, and accordingly, the appropriateness of the use of accounting principles applicable to a going concern. These condensed consolidated financial statements do not reflect the adjustments to the carrying values of assets and liabilities, expenses and balance sheet classifications that would be necessary if the going concern assumption was not appropriate. These adjustments could be material.

An outbreak of a novel strain of coronavirus, identified as "COVID-19", was declared a global pandemic by the World Health Organization on March 11, 2020. The duration and full financial effect of the COVID-19 pandemic is unknown at this time. Any estimate of the length and severity of these developments is therefore subject to significant uncertainty, and accordingly estimates of the extent to which the COVID-19 may materially and adversely affect the Company's operations, including suppliers, service providers, employees and on global financial markets limiting our ability to access financing, are also subject to significant uncertainty. The Company is monitoring developments in order to be in a position to take appropriate action. To date, COVID-19 has not had a material impact on the Company's financial condition, liquidity or longer-term strategic development.

The Company's ability to continue future operations and fund its planned development activities at the Horne 5 Deposit is dependent on Management's ability to secure third parties' approvals and additional financing in the future. Any funding shortfall may be met in the future in a number of ways, including, but not limited to, achieving the next milestones of the Silver Stream Agreement and the issuance of debt or equity instruments. While Management has been successful in securing financing in the past (see Notes 6, 7, 8 and 10), there can be no assurance that it will be able to do so in the future or that these sources of funding or initiatives will be available to the Company or that they will be available on terms which are acceptable to the Company. If Management is unable to obtain new funding, the Company may be unable to continue its operations, and amounts realized for assets might be less than the amounts reflected in these consolidated financial statements.

2. Basis of presentation

These unaudited condensed consolidated interim financial statements have been prepared in accordance with *International Financial Reporting Standards* ("IFRS") as issued by the *International Accounting Standards Board* ("IASB") applicable to the preparation of interim financial statements, including International Accounting Standard ("IAS") 34, *Interim Financial Reporting*. The condensed consolidated interim financial statements should be read in conjunction with the annual audited consolidated financial statements of the Company for the year ended June 30, 2021, which have been prepared in accordance with IFRS as issued by the IASB.

These condensed consolidated interim financial statements were approved by the Company's Board of Directors (the "Board") on February 24, 2022.

The policies applied in these condensed consolidated interim financial statements are the same accounting policies and methods as those in Falco's most recent audited annual consolidated financial statements.

3. Judgments, estimates and assumptions

The preparation of financial statements in conformity with IFRS requires the Company to make judgments, estimates and assumptions on reported amounts of assets and liabilities, and reported amounts of expenses. The estimates and assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may be substantially different. The critical accounting, judgments, estimates and assumptions are the same as those in our most recent audited annual consolidated financial statements.

(a) In September 2014, the Company entered into a five-year option agreement with the City of Rouyn-Noranda (the "City") to acquire surface rights above or near the Horne 5 Deposit. This option agreement was extended for an additional five years in January 2020. On June 29, 2017, the Company exercised part of this option agreement, purchasing a property for \$2,946,900. On December 14, 2020, the City and Falco agreed to extend the payment date of the remaining amount payable of \$946,900 to January 1, 2022, which was paid in December 2021.

6. Contract Liability

On February 27, 2019, the Company and Osisko Gold (the "Parties") completed the Silver Stream Agreement, whereby Osisko Gold agreed to provide the Company with staged payments totaling up to \$180 million, toward the funding of the development of the Horne 5 Project, payable as follows:

- First deposit of \$25,000,000 on closing of the Silver Stream Agreement, net of any amounts owing by the Company to Osisko Gold;
- Second deposit of \$20,000,000 upon the Company receiving all necessary material third-parties' approvals, licenses, rights
 of way, and surface rights;
- Third deposit of \$35,000,000 following receipt of all material permits required for the construction of a mine at the Horne 5 Project, a positive construction decision for the Horne 5 Project, and raising a minimum of \$100,000,000 in equity, joint venture or any other non-debt financing for the construction of the mine;
- Fourth deposit of \$60,000,000 upon the total projected capital expenditure for the Horne 5 Project having been demonstrated to be financed; and
- Optional fifth deposit of \$40,000,000 at the sole election of Osisko Gold to increase the stream percentage, payable concurrently with the fourth deposit.

Under the terms of the Silver Stream Agreement, Osisko Gold will purchase 90% of the payable silver from the Horne 5 Project, increasing to 100% of the payable silver from the Horne 5 Project in the event the optional fifth deposit is paid. In exchange for the silver delivered under the Silver Stream Agreement, Osisko Gold will pay the Company ongoing payments equal to 20% of the spot price of silver on the day of delivery, subject to a maximum payment of USD\$6.00 per silver ounce. The silver produced from the Horne 5 Project and properties within a 5 km area of interest will be subject to the Silver Stream Agreement. Pursuant to the Stream Agreement, the Company has agreed to pay a \$2,000,000 capital commitment fee. The fee is payable upon Osisko funding the third deposit under the Stream Agreement.

Falco's obligations towards Osisko Gold with respect to the Silver Stream Agreement is secured by a deed of hypothec for a maximum of \$600 million; such first ranking deed was subordinated in favour of the security granted to Glencore Canada as part of the Convertible Debenture transaction (see Note 8).

On January 31, 2020, November 27, 2020 and January 31, 2022, the Parties amended the Silver Stream Agreement, whereby Osisko Gold agreed to postpone by one year each of the deadlines granted to Falco to achieve milestones set as condition precedent to Osisko Gold funding the remaining staged payments and certain other deadlines.

On August 19, 2021, the Company received from Osisko Gold a partial advance payment of \$10,000,000 on the second installment of \$20,000,000 to be made under the Silver Stream Agreement.

As of December 31, 2021 and June 30, 2021, the Company incurred on a cumulative basis \$1,728,528 of transaction costs relating to the Contract Liability, which is accounted for as other non-current assets on the consolidated balance sheet.

Notes to the Condensed Consolidated Interim Financial Statements For the three-month and six-month periods ended December 31, 2021 and 2020 (Unaudited)

(Expressed in Canadian Dollars)

6. Contract Liability (continued)

The breakdown of the Contract Liability is as follows:

	\$
Balance at June 30, 2020	29,724,143
Interest on the Contract Liability's financing component	3,950,835
Balance at June 30, 2021	33,674,978
Interest on the Contract Liability's financing component	2,428,476
Partial advance of second milestone payment	10,000,000
Balance at December 31, 2021	46,103,454

Under IFRS 15, the Silver Stream Agreement is considered to have a significant financing component. As such, interest is accrued and added to the Contract Liability. The Contract Liability will begin to be gradually recognized as part of revenues over the life of the mine once deliveries under the Silver Stream Agreement begin. The Company therefore records notional non-cash interest, which is capitalized to property, plant and equipment, as borrowing costs, at each financial reporting date based on the implied interest rate that was determined at the time that the Silver Stream Agreement was consummated and/or modified. This interest accrual is not a contractual obligation but is intended to allocate the cost of the Silver Stream Agreement over the period it is outstanding. This accrual is a non-cash item and as such is not reported on the consolidated statement of cash flows.

7. Convertible Loan

On February 22, 2019, Falco closed a secured senior loan agreement with Osisko Gold (the "Secured Loan") for \$10,000,000 (the "Principal Amount"). On November 22, 2019, the Secured Loan was amended, increasing the Principal Amount by \$5,900,000 (the "Increased Principal Amount") to \$15,900,000 (the "Amended Principal Amount") and the maturity date was extended from December 31, 2019 to December 31, 2020. Osisko Gold was entitled to set-off from the Increased Principal Amount a sum of \$881,131, representing the then current accounts payable owing to Osisko Gold by the Company, so that, on a net basis, Osisko Gold provided an amount of \$5,018,869 available to Falco for withdrawal. Under the terms of the Secured Loan, interest is payable on the Amended Principal Amount at a rate per annum that is equal to 7%, compounded quarterly and accrued interest is payable upon repayment of the Amended Principal Amount.

On November 17, 2020, the Company entered into a binding agreement with Osisko Gold in order to extend the maturity date of the Secured Loan from December 31, 2020 to December 31, 2022 (the "Maturity Extension"). Together with capitalized interest, the principal amount outstanding under the Secured Loan as of November 17, 2020 was \$17,596,136. In consideration for the Maturity Extension, the Secured Loan was also amended to become convertible (the "Convertible Loan") after the first anniversary of the closing date into common shares of the Company ("Common Shares") at a conversion price of \$0.55 per Common Share. The Convertible Loan bears interest at a rate of 7% per annum, compounded quarterly. Falco's obligations towards Osisko Gold with respect to the Convertible Loan is secured by a deed of hypothec for a maximum of \$25,000,000 over all of the assets of Falco other than the Horne 5 Project and ranks after the security granted to Glencore Canada as part of the Convertible Debenture transaction (see Note 8).

In consideration for the Maturity Extension, the Company issued to Osisko Gold 10,664,324 Common Share purchase warrants of the Company ("Warrants"), each Warrant is exercisable for one Common Share at an exercise price of \$0.69 up to 24 months from the date of issuance of the Warrants. The terms of the Warrants provide for a cashless exercise feature, under which the number of Common Shares to be issued will be based on the number of Common Shares for which Warrants are exercised multiplied by the difference between the market price of a Common Share and the exercise price divided by the market price at the time of the exercise. Osisko Gold may utilize the cashless exercise feature at its sole discretion. The Warrants (and the underlying Common Shares) were subject to a hold period of four months from the date of issuance of the Warrants, in accordance with applicable Canadian securities laws.

Notes to the Condensed Consolidated Interim Financial Statements For the three-month and six-month periods ended December 31, 2021 and 2020 (Unaudited)

(Expressed in Canadian Dollars)

7. Convertible Loan (continued)

On November 17, 2020, the principal amount outstanding under the Secured Loan totaling \$17,596,136 was considered extinguished pursuant to IFRS 9. On November 17, 2020, the Warrants, recognized as derivative warrant liabilities, were measured at their estimated fair value of \$1,027,814 (see Note 9) with the residual amount attributed to the debt host of the Convertible Loan (\$16,568,322) and a \$ nil residual amount to the conversion option equity component.

Transactions affecting the Convertible Loan with Osisko Gold were as follows:

	\$
Principal owing at June 30, 2020	15,900,000
Interest owing at June 30, 2020	1,233,335
Balance, at June 30, 2020	17,133,335
Derivative warrant liabilities	(1,027,814)
Interest	1,511,664
Balance June 30, 2021	17,617,185
Interest	900,068
Balance December 31, 2021	18,517,253

The Convertible Loan's principal amount is directly attributable to the acquisition or construction of a qualifying asset, as such these borrowing costs are capitalized to property, plant and equipment. During the six-month period ended December 31, 2021, \$900,068 in interest expense was capitalized to property, plant and equipment in the consolidated balance sheet.

8. Convertible Debenture

On October 27, 2020, the Company entered into an agreement with Glencore Canada Corporation ("Glencore Canada") for a \$10,000,000 senior secured convertible debenture (the "Convertible Debenture"). The Convertible Debenture has an initial term to maturity of 12 months and bears interest at a rate of 7% per annum, compounded quarterly. Accrued interest is capitalized quarterly by adding the interest to the principal of the Convertible Debenture, unless the Company elects at its sole discretion to settle in cash any accrued interest. In certain circumstances, Falco has the right to extend this maturity date by an additional six months.

The Convertible Debenture can be converted into Common Shares within 10 days of the Maturity Date at Glencore Canada's sole option at a conversion price of \$0.41 per Common Share.

Falco issued to Glencore Canada 12,195,122 Warrants for which each Warrant is exercisable for one Common Share at an exercise price of \$0.51 up to 12 months from the date of issuance of the Warrants. The terms of the Warrants provide for a cashless exercise feature, under which the number of Common Shares to be issued will be based on the number of Common Shares for which warrants are exercised multiplied by the difference between the market price of a Common Share and the exercise price divided by the market price at the time of the exercise. Glencore Canada may utilize the cashless exercise feature in its sole discretion. The Warrants (and the underlying Common Shares) were subject to a hold period of four months from the date of issuance of the Warrants, in accordance with applicable Canadian securities laws.

The Convertible Debenture is secured by first ranking security on all assets owned by Falco. Glencore Canada will release the security upon the settlement of the Convertible Debenture and the repayment of interest. So long as Glencore Canada owns (or is deemed to own) a minimum equity interest of 5% in the Company, it will have the right to maintain its pro-rata interest in Falco by participating in equity financings and other dilutive instruments.

On October 27, 2020, the derivative warrant liabilities were measured at their estimated fair value of \$1,232,501 (see Note 9), with the residual amount attributed to the debt host of the Convertible Debenture (\$8,767,499) and a \$ nil residual amount to the conversion option equity component. For the year ended June 30, 2021, transaction costs incurred on the Convertible Debenture totaled \$468,620, for which \$57,757 was expensed as professional fees in the consolidated statement of loss and comprehensive loss and \$410,863 was capitalized to the Convertible Debenture.

8. Convertible Debenture (continued)

On October 13, 2021, the Company announced an agreement with Glencore Canada to extend the maturity date of the \$10,000,000 Convertible Debenture, from October 27, 2021 to April 27, 2022, as the circumstances for such an extension were met in accordance with the terms of the Convertible Debenture.

Given the extension to the maturity date of the Convertible Debenture, the Company announced the extension of the expiry date of the Warrants issued to Glencore under the Convertible Debenture from October 27, 2021 to April 27, 2022. All other terms and conditions of the Warrants remain unchanged, including the exercise price of \$0.51 per Common Share.

Transactions affecting the Convertible Debenture were as follows:

	\$
Balance at June 30, 2020	<u>-</u>
Debt component	8,767,499
Transaction costs Interest	(410,863) 1,553,428
Balance June 30, 2021	9,910,064
Gain on extension of Convertible Debenture Interest	(624,234) 1,119,544
Balance December 31, 2021	10,405,374

A portion of the Convertible Debenture's principal amount is directly attributable to the acquisition or construction of a qualifying asset, as such a portion of these borrowing costs are capitalized to property, plant and equipment. During the six-month period ended December 31, 2021, \$396,249 in net interest costs have been capitalized to property, plant and equipment in the consolidated balance sheet. During the six-month period ended December 31, 2021, \$99,062 in net interest costs have been expensed in the consolidated statement of loss and comprehensive loss (\$ nil for the six-month period ended December 31, 2020).

9. Derivative warrant liabilities

In accordance with IFRS, a contract to issue a variable number of shares fails to meet the definition of equity and must instead be classified as derivative liabilities and measured at fair value with changes in fair value recognized in the consolidated statement of loss and comprehensive loss at each period-end. The derivative liabilities will ultimately be converted into Common Shares when the Warrants are exercised, or will be extinguished on the expiry of the outstanding Warrants, and will not result in the outlay of any cash by the Company. Immediately prior to exercise, the Warrants are remeasured at their estimated fair value. Upon exercise, the intrinsic value is transferred to share capital (the intrinsic value is the share price at the date the Warrant is exercised less the exercise price of the Warrant). Any remaining fair value is recorded through the consolidated statement of loss and comprehensive loss as part of the change in estimated fair value of derivative warrant liabilities.

10. Share capital

On August 18, 2021, the Company closed a bought deal private placement, issuing 30,700,000 Units (the "Units") at a price of \$0.40 per Unit (the "Offering"), representing aggregate gross proceeds to Falco of \$12,280,000. Each Unit consists of one Common Share and one-half-of-one Warrant. Each Warrant will be exercisable to acquire one Common Share until July 31, 2025, at an exercise price of \$0.55.

The expiry date of the Warrants may be accelerated by the Company at any time following the six-month anniversary of the closing date of the Offering if the volume-weighted average trading price of the Common Shares on the TSX-V is greater than \$0.80 for any 10 consecutive trading days, at which time the Company may accelerate the expiry date.

Gross proceeds from the Offering were allocated between the Common Shares (\$12,126,500) and the Warrants (\$153,500), based on the relative fair value of the Common Shares as compared to the Warrants at the date of the closing of the Offering. Share issue costs totaled \$992,685, of which \$980,276 was allocated to the Common Shares and \$12,409 was allocated to the Warrants, based on their respective allocated proceeds.

13. Net loss per share

As a result of the net loss for the three-month and six-month periods ended December 31, 2021 and 2020, all potentially dilutive common shares are deemed to be antidilutive and thus diluted net loss per share is equal to the basic net loss per share for these periods.

14. Key management and related party transactions

Key management includes directors (executive and non-executive) and certain officers of the Company. The compensation paid or payable to key management for employee services is presented below for the three-month and six-month periods ended December 31, 2021 and 2020:

	455,275	692,093	1,028,844	1,106,779	

Related party transactions and balances, not otherwise disclosed, are summarized below:

During the three-month and six-month periods ended December 31, 2021, amounts of \$172,000 and \$342,000, respectively were invoiced by Osisko Gold for professional services and access to office spaces (amounts of \$460,000 and \$710,000, respectively, for the three-month and six-month periods ended December 31, 2020). An amount of \$170,000 is included in accounts payable and accrued liabilities as at December 31, 2021 (\$296,000 as at June 30, 2021).

As at December 31, 2021, interest payable on the Convertible Loan amounted to \$1,420,833 (\$769,783 as at June 30, 2021). Interest incurred on the Convertible Loan for the three-month and six-month periods ended December 31, 2021 totaled \$452,959 and \$900,068, respectively, and was capitalized to property, plant and equipment in the consolidated balance sheet.

During the three-month and six-month periods ended December 31, 2021, amounts of \$114,000 and \$208,000, respectively, were invoiced by Osisko Development for professional services (\$ nil for the three-month and six-month periods ended December 31, 2020). An amount of \$72,000 is included in accounts payable and accrued liabilities as at December 31, 2021 (\$464,000 as at June 30, 2021).

During the three-month and six-month periods ended December 31, 2021, amounts of \$204,070 and \$383,000, respectively, were invoiced to associates of Osisko Gold for professional services provided by the Company (\$262,492 and \$575,000 for the three-month and six-month periods ended December 31, 2020), which have been recorded as cost recoveries in the statement of loss and comprehensive loss.

15. Fair value of financial instruments

The Company's derivative warrant liabilities are measured at fair value in the consolidated balance sheet as at December 31, 2021 (see Note 9).

As at December 31, 2021 and June 30, 2021, the financial instruments that are not measured at fair value in the consolidated balance sheets are represented by cash, restricted cash, accounts receivable, accounts payable and accrued liabilities, the debt host of the Convertible Loan and the Convertible Debenture. The fair values of the cash, restricted cash, accounts receivable, accounts payable and accrued liabilities approximate their respective carrying values due to their short-term nature. The fair value of the Convertible Loan and the Convertible Debenture are \$18,000,000 and \$9,850,000, respectively (Level 3 measurement).

16. Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet the obligations associated with its financial liabilities. The Company manages the liquidity risk by continuously monitoring actual and projected cash flows, taking into account the requirements related to its investment commitments and mining properties and matching the maturity profile of financial assets and liabilities. As at December 31, 2021, cash is comprised of bank balances. As described in Note 1, the Company estimates that with its liquidity position as at December 31, 2021, it does not have enough funds available to meet its financial liabilities for the next year. The following table summarizes the Company's contractual commitments as at December 31, 2021:

	Between one Less than and three one year years		More than three years

18. Commitments

Purchase agreement

As per the purchase agreement dated March 28, 2011, assigned to the Company in September 2012 and considering, amongst others, further transactions among Glencore Canada and BaseCore Metals LP ("Basecore"), BaseCore owns a 2% net smelter return ("NSR") royalty on the Horne 5 Project.

Certain of the rights of Glencore Canada under this purchase agreement are secured by a deed of hypothec in favour of Glencore Canada for a maximum amount of \$100 million. Falco's obligations towards BaseCore with respect to the royalty interest are secured by a deed of hypothec for a maximum of \$45 million.

Furthermore, the Horne 5 Project is located adjacent to Glencore Canada's operations and the Company is contractually bound to seek authorizations from time to time from Glencore Canada to perform certain activities, which may affect or impact their operations.

Hoisting systems

On March 24, 2017, the Company entered into an initial agreement for the engineering, procurement, supply, performance services and installation of the hoisting systems for the Horne 5 Project (the "Contract"). The hoisting systems will include a production hoist, an auxiliary hoist and a service hoist. The Contract is estimated at \$28,900,000, of which \$8,225,000 was incurred and paid as at December 31, 2021 and can be terminated at any time, subject to the payment of the approved and executed work performed by the supplier at the termination date. These amounts are recorded in mining equipment.

18. Commitments (continued)

City of Rouyn-Noranda (the "City")

On September 12, 2017, the Company concluded the signing of a Memorandum of Understanding (the "MOU") with the Commission scolaire de Rouyn-Noranda (the "School Board") to acquire the Pavilion located on the site of the Horne 5 Project. As per the MOU, Falco became the owner of the Pavilion upon completion of a relocation program for the current Pavilion activities (the "Relocation Project"). As per the Relocation Project, the Company transferred the Pavilion's activities to the Complexe La Source-Polymétier (the "Complexe") and Falco funded and executed the expansion of the Complexe to accommodate these additional activities. Falco transferred the expanded Complexe to the School Board on June 28, 2018, completing the Relocation Project. The Company has no more obligations towards the School Board.

As the Complexe was constructed on property owned by the City and where sports and community activities were undertaken, Falco concluded an agreement with the City in December 2018, which was amended in August 2019, to finance and build infrastructure to relocate such activities for an amount not to exceed \$2,500,000. The Company completed its commitment to the City in September 2021 at a cost of \$2,000,000.

Offtake Agreements

On October 27, 2020, Falco entered into agreements with Glencore Canada and its affiliated companies ("Glencore") related to the Horne 5 Project. The agreements include life of mine copper and zinc concentrate offtake agreements (the "Offtake Agreements"). Under the terms of the Offtake Agreements, Glencore will purchase from Falco the copper and zinc concentrates produced during the life of mine of the Horne 5 Project.

First Quantum

In June 2021, Falco entered into an option agreement (the "Agreement") with First Quantum Minerals Ltd. ("First Quantum") pursuant to which First Quantum granted the Company the sole and exclusive right to acquire an undivided 100% ownership interest (the "Option") in the Norbec sites located in the vicinity of the City (the "Properties"). The Company paid \$1,000,000 (the "Option Price") to First Quantum on August 20, 2021, in the form of (i) a cash payment of \$500,000 (the "Cash Payment"), and (ii) the issuance of 1,265,182 of Common Shares having an aggregate value of \$500,000 (the "Consideration Shares") based on the volume weighted average trading price of the Common Shares for the five trading-day period ending as of two business days before the date of the Cash Payment.

Upon the Company's decision to exercise the Option, (i) First Quantum will transfer the Properties to Falco; (ii) the Company will assume historical and contingent environmental liabilities related to the Properties' former mining site; and (iii) First Quantum will make cash payments to Falco representing the reimbursement of the Option Price, together with additional payments totaling \$3,500,000 (\$500,000 on the date of transfer of the Properties and \$1,000,000 at each of the three consecutive anniversaries thereof). The Option is exercisable, subject to certain conditions, until December 31, 2022. First Quantum will retain a 2% NSR royalty on any production from the area represented by the mining concessions 177 and 517, which form a part of the Properties.
